

RAMAPO VALLEY OB/GYN - PC

INSURANCE WAIVER

Dear Patient:

At the time of your visit you are responsible to notify us of your proper insurance information. If you are on a managed care plan(s) that the practice participates with, you must present the insurance card for each insurance and your co-pay. Non-participating insurance plan patients are required to pay at the time of the visit.

If your insurance does not provide coverage for your service you will be responsible for the charges.

Most managed care plans require use of network labs, radiologists and specialists. Please do not utilize a non-network facility.

Laboratory visits need the proper requisition. These can be obtained from the nursing staff.

Not all insurances cover contraceptive care and well (preventive care) physicals. It is your responsibility to contact your insurance company to verify your particular coverage.

Some insurance plans require referrals or authorizations for medical procedures or specialists visits. If your doctor deems the service as medically necessary, a referral can be obtained from our office. Non-emergency referrals will be accommodated in a 72 hour period from the date of the request. **Failure to obtain a referral will result in the patient being responsible for the charges.**

I have read and understand the information provided.
